

We digitalise mobility.

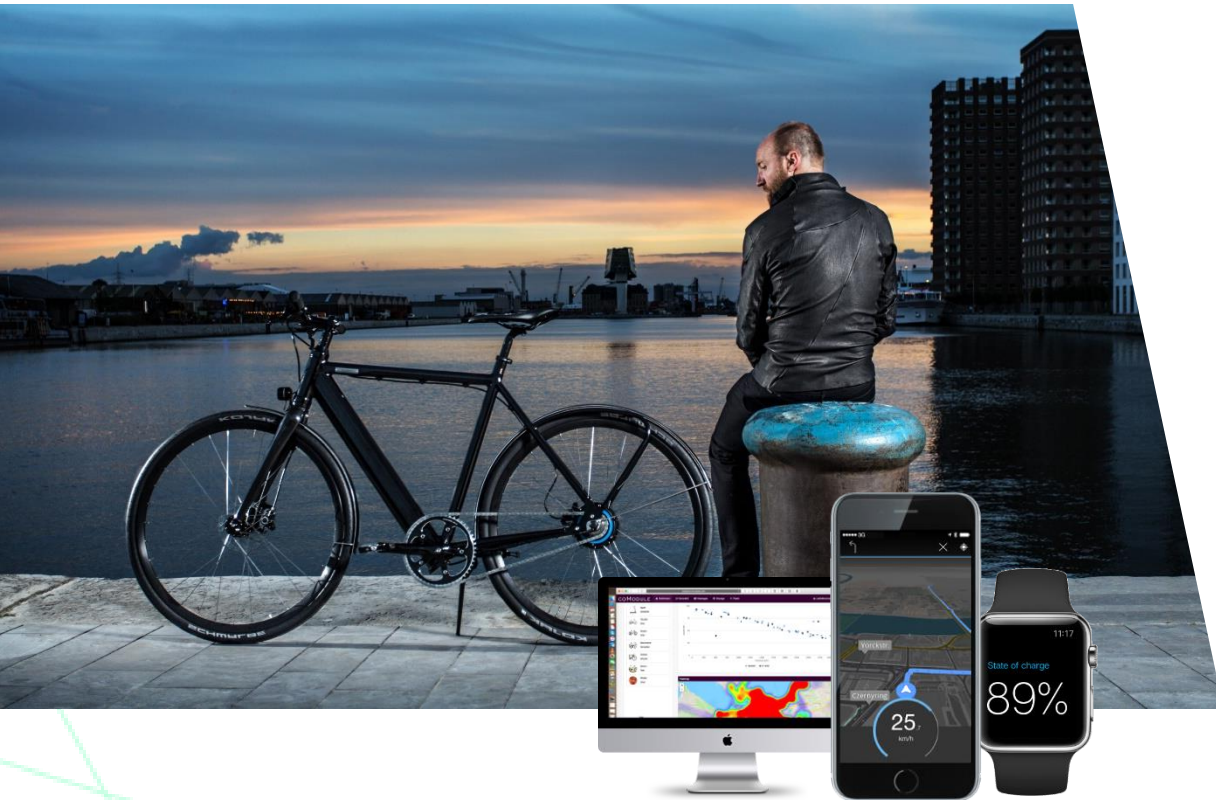

Internet of Things solutions for vehicle manufacturers and fleet owners.

COMODULE

02 What we do?

For Vehicle Manufacturers

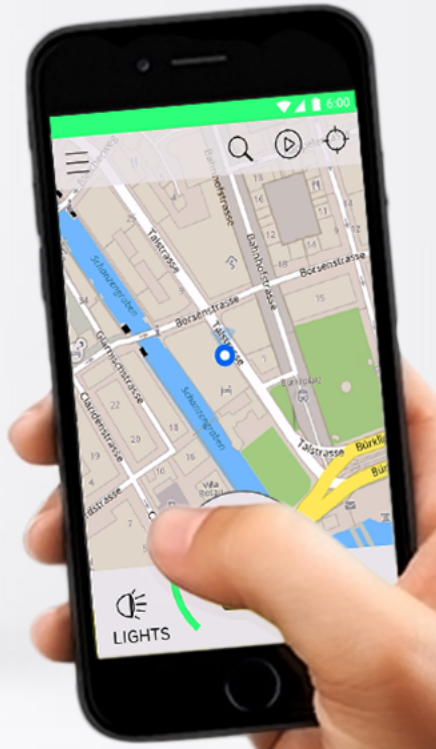

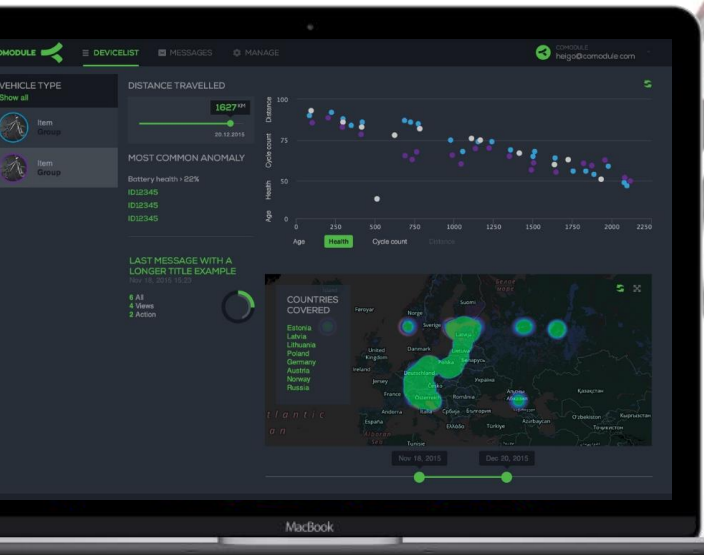

For Fleet Owners

03 How?

Complete connectivity platform.

04 Company

20 professionals 3 locations

With 20 professionals (and growing!) following ISO9001 quality standards and presence in 3 locations (Berlin, Taipei and Tallinn) we are dedicated to delivery the best service.

We are working together with 13 customers globally who are shipping products to 43 countries which makes us global leader in the industry.

13 customers 43 destinations

6 Key partners

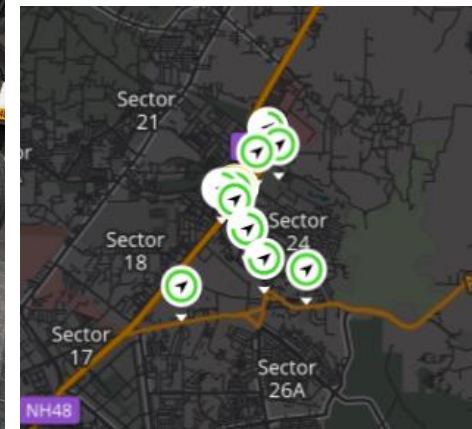

We have partnered up with key partners in the industry who share our vision of digital mobility.

Our mission is to empower mobility of tomorrow through digitalisation. We create digital (software) layer between vehicles and rest of the world. This enables more efficient, safe and convenient forms of (urban) transportation. We work with the most important vehicle segment of 21st century – bicycles, scooters, motorcycles, tricycles.
