

Register of Manufacturer Identifier for VDE SPEC 90013

“Interface for digital Signals and Sensors for Traffic Light Control Devices”

This VDE SPEC deals with the introduction of an open, intelligent, digital interface for units that are typically mounted on the traffic light pole. These can be of a safety-relevant nature such as signal heads, but also of a non-safety-relevant nature like push buttons. This VDE SPEC specifies the parameters and the physical characteristics of the interface for bidirectional communication of traffic light controllers with distributed signalling and detection devices in an architecture according to EN 50556:2018, 3.2.8 "Centralized power supply, distributed intelligent system".

Central Registration Authority:
VDE e.V.
Manufacturer ID VDE SPEC 90013
Merianstraße 28
63069 Offenbach am Main
GERMANY

- Mr. Artur Schmidt
- Phone: +49 69 6308-354
- E-Mail: artur.schmidt@vde.com

FAQ:

Why should I register?

In traffic light controllers with an open interface according to VDE SPEC 90013 it is essential to have components with unique identifiers. The manufacturer identifier is one important part of the unique number. In order to act as vendor of components for traffic light controllers a registration is necessary.

How do I apply?

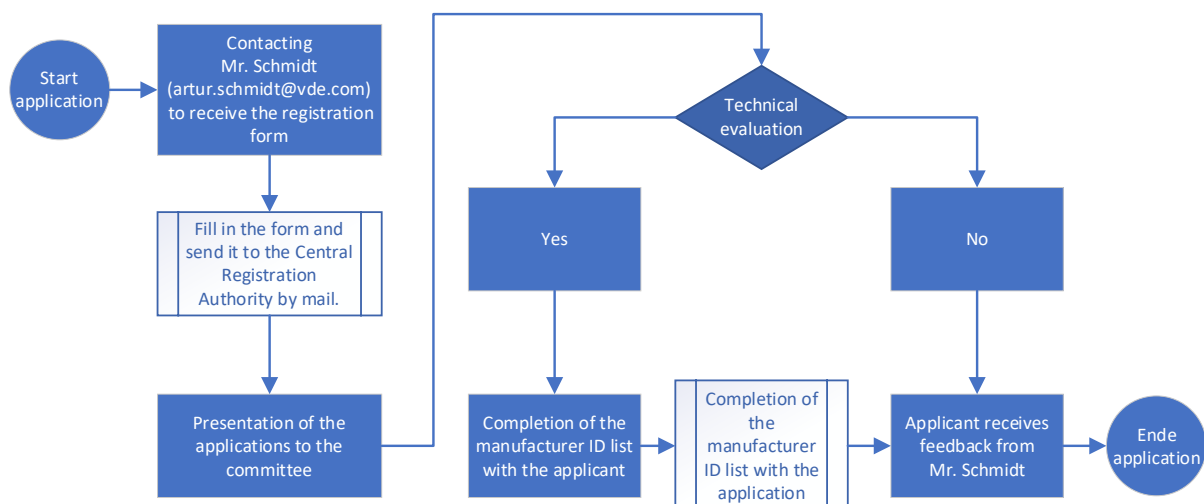

Fill out the registration form that you will receive after contacting Mr Schmidt (artur.schmidt@vde.com), sign it and send it to the Central Registration Office:

VDE e.V., Manufacturer ID VDE SPEC 90013, Merianstraße 28, 63069 Offenbach, Germany

Do you charge a registration fee?

Yes, to cover registration costs, the VDE will charge a one-time fee of EUR 1000,-.

What is the approval process?

Listed Manufacturer Identifier:

Manufacturer	Manufacturer ID Number		Date of issuing
	Decimal	Binary Code	
<p>SWARCO TRAFFIC SYSTEMS GmbH Kelterstraße 69 72669 Unterensingen Germany Tel.: +49 7022 6025 0 E-Mail: office.sts@swarco.de</p>	1	0000 0001	2022-03-01
